## FIRST DAYTON CANCER CENTER, KETTERING, OHIO

**Project inception date:** November-02

**Project completion date:** July-03

**Construction cost:** \$1,222,683

**Construction type:** Construction Management

### Project Scope

Newly constructed 8,000 square foot oncology center. This facility features a wood frame with concrete floor slab and cast-in-place concrete accelerator and HDR vaults. The building includes a metal panel roof, brick veneer, wood windows, power-operated doors and a beautiful interior finish package.

### Additional Information:

The building is programmed to include an accelerator vault, simulator room, mold room, physician's practice, office space, and a spacious waiting and reception area. The accelerator vault is constructed of thick concrete walls and ceilings ranging up to seven feet in thickness. Lead doors, shielding, and protective glass are also components of this facility.
