NEW PREK-12 SCHOOL, HARROD, OHIO

Construction start date:	July 2005
Project completion date:	May 2007
Construction cost:	\$29,856,780
Construction type:	Construction Management

Project scope:

This 179,797 square foot PreK-12 school building is located on 62 acres of land on the northeast corner of State Route 309 and Napoleon Road in Harrod, Ohio. The new facility houses pre-kindergarten through 12th grade students with the building divided according to grade levels. The building includes a 1,500 seat gymnasium along with a smaller gym seating 250 and a combined auditorium and cafeteria seating 947. This provides the district much more space for performances. The new facility is far more advanced in terms of size and technology and significantly improves the students' learning environment from its former facility.
