NEW PREK-5 SCHOOL, DEFIANCE OHIO

Construction start date: April 2007

Project completion date: July 2009

Construction cost: \$23,180,586

Construction type: Construction Management

Project scope:

Construction of a new 127,000 square foot PK-5 Elementary School and demolition of four (4) existing buildings (combining them all into one, thus reducing operational costs). Some special features include terrazzo corridor and auditeria, standing seam metal roof, geothermal well field, and skylights. Event parking, wood gym floor, and four classrooms were added through an LFI (Local Initiated Fund). The new building is located on land adjacent to the existing high school. The site is also located next to wetlands and a wooded area that will assist in the educational process of the elementary students.

Project accomplishments:

Four additional classrooms were added during construction on this project. Both the original project and the added classrooms were
