NEW HS/MS & ES RENOVATIONS, STRYKER, OHIO

Construction start date: June 2007
Project completion date: July 2009
Construction cost: \$11,795,518
Construction type: Construction Management

Project scope:

Project scope included the construction of a new 48,981 square foot two-story addition and renovation to the existing building. The two-story addition was constructed for the high school and middle school students, consisting of classroom, lab, and gymnasium space. Renovation consisted of replacement/upgrade of interior finishes and HVAC systems in the 1980 elementary wing. All of this work was conducted on the same site that was essentially the size of a city block. The project included the demolition of

Project accomplishments:

The student body moved into their new facility on schedule and the project was completed under the district's budget. This was accomplished as the existing buildings maintained educational services and despite pre-existing unsuitable soils.
