NEW PREK-12 SCHOOL, FAIRLAWN, OHIO

Construction start date: April 2008

Project completion date: September 2009

Construction cost: \$18,026,160

Construction type: Construction Management

Project scope:

Construction a new 97,573 square foot PK-12 facility. Scope included construction of 2 gymnasiums, kitchen and dining space, music and laboratory rooms, that will all compliment the new classrooms. The new building was constructed behind the existing high school that was demolished at the end of the project.

Project accomplishments:

This project was completed on time and under budget. The student body moved in to their new facility before the new school year began.
