### Project scope:

Construct a new 92,258 square foot K-4 elementary building. This new elementary building will replace the district's existing two elementary buildings. The new elementary building will join the high school and middle school buildings to create a single educational campus for the students of Indian Lake. Touchstone provided Owner's Representative Services on this project.

### Project accomplishments:

This project was completed on time and under budget. The student body moved into their new facility before the new school year began.
